Subject: Complaint - Metformin 500mg Color Variation - Batch BT-2024-0892

Dear Customer Quality Team,

We are writing to formally report a quality complaint regarding Metformin Hydrochloride Tablets 500mg received on December 10, 2024.

Customer Name: City Medicals Pvt Ltd
Product: Metformin Hydrochloride Tablets 500mg
Batch/Lot Number: BT-2024-0892
Manufacturing Date: September 2024
Expiry Date: August 2026
Quantity Affected: 200 tablets (approximately 2 kg)

Nature of Complaint:

Upon inspection, we observed visible color variation across tablets in the same batch. Approximately 15-20% of the tablets show a darker shade compared to the standard white color specification. This was noticed during our incoming quality check.

This may indicate a manufacturing process deviation and could affect patient confidence in the product.

Severity Assessment: Moderate
Please investigate and provide a CAPA report at the earliest.

Regards,
Priya Sharma
Quality Assurance Manager, City Medicals Pvt Ltd
